

07\_17\_14\_2: I am satisfied with the process for searching  
for my own data

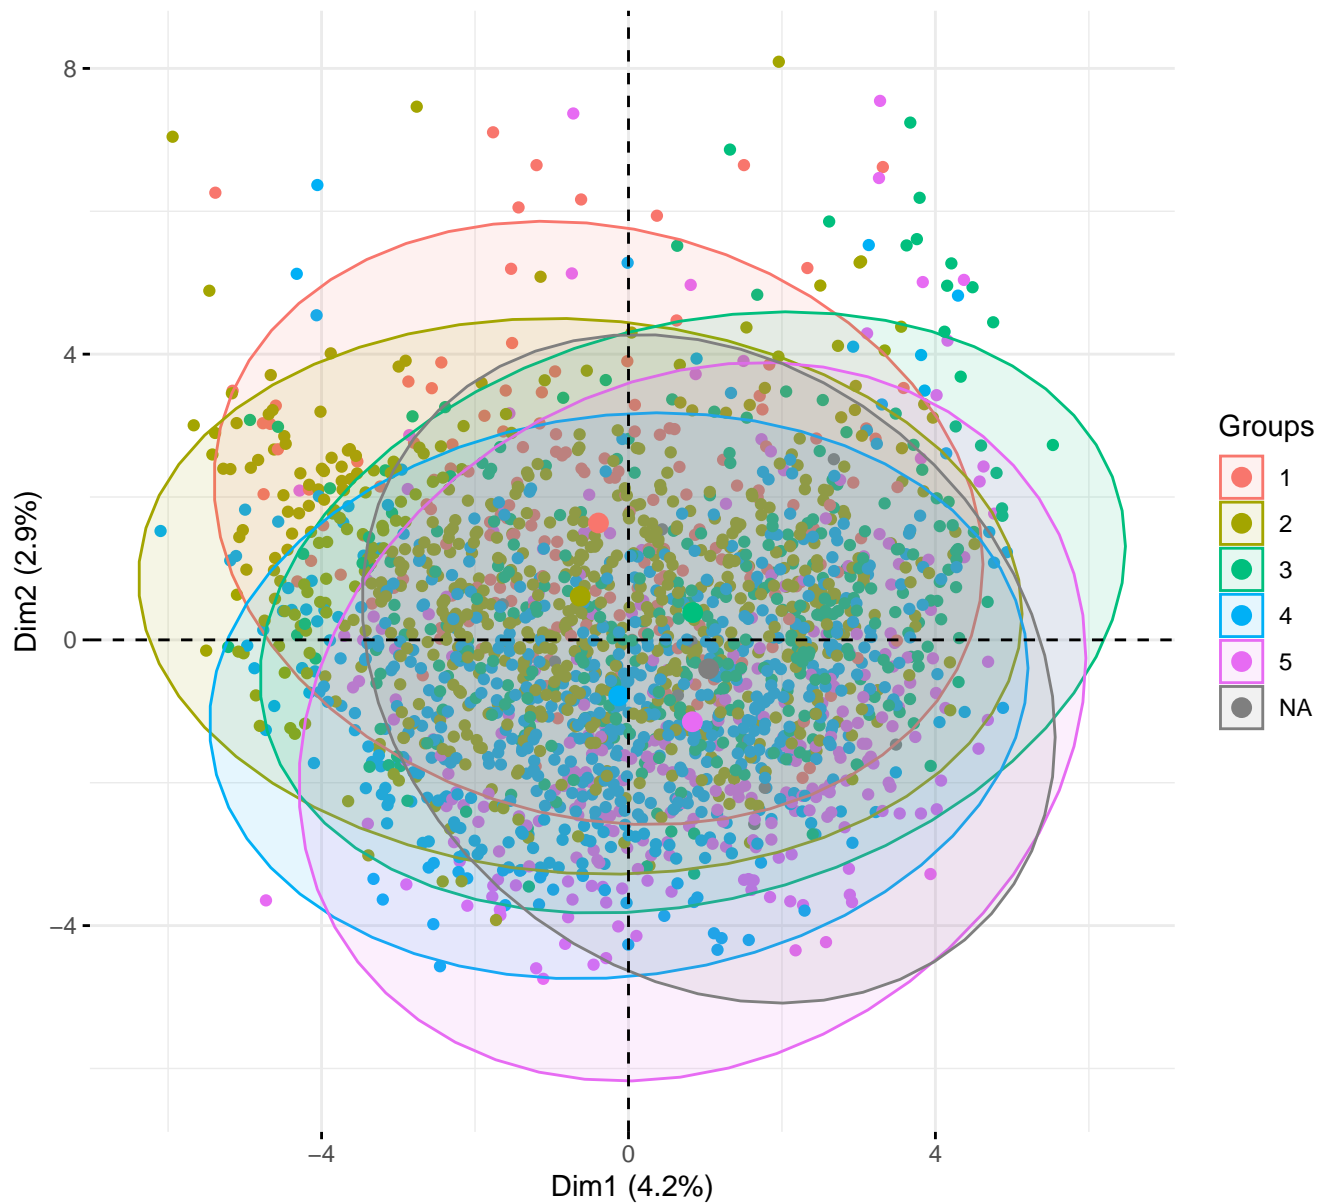

07\_17\_14\_3: I am satisfied with the process for  
cataloging/describing my data

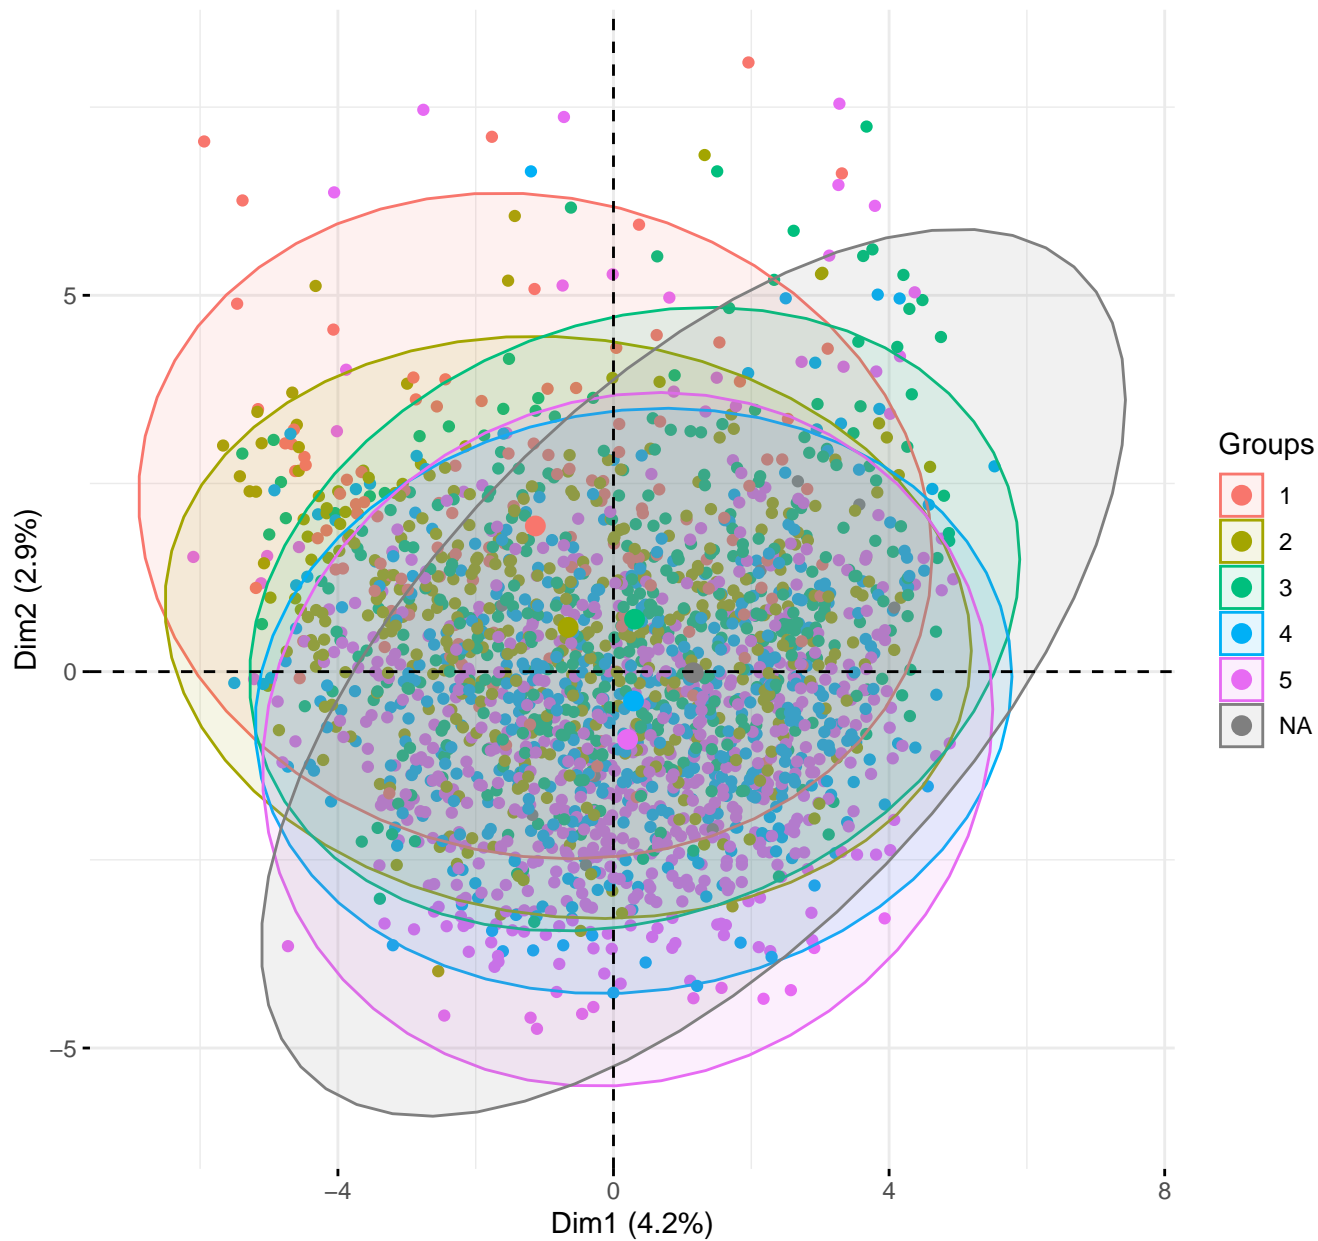

07\_17\_14\_1: I am satisfied with the process for  
collecting my research data

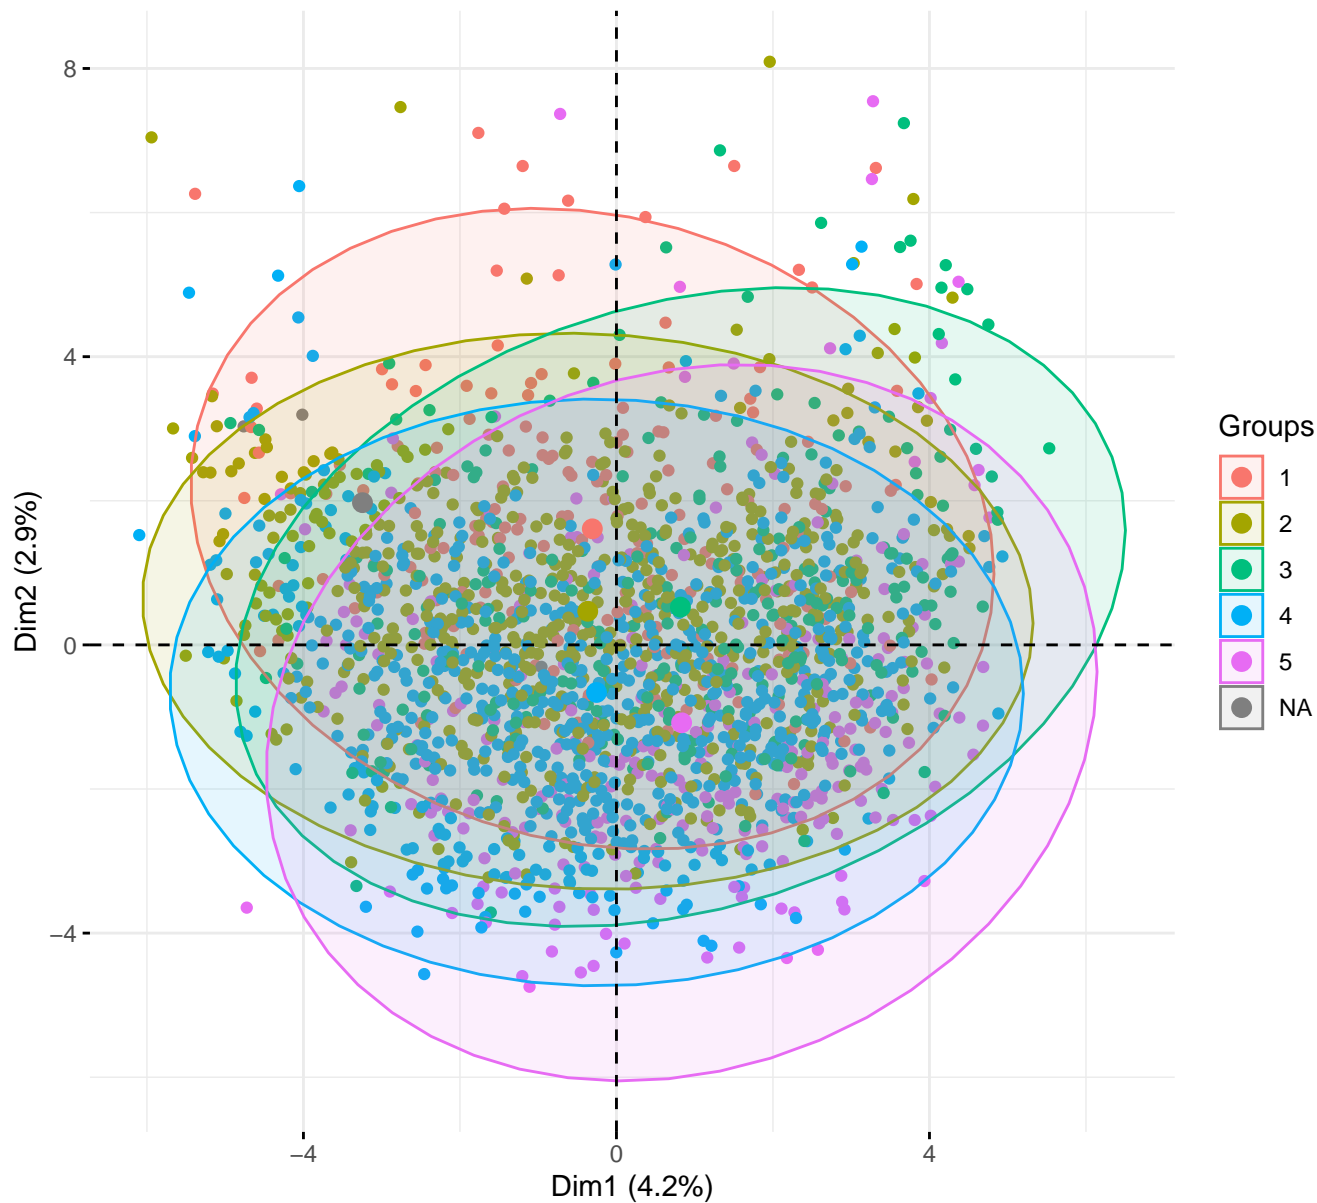

08\_20\_16\_2: My organization or project has a formal established process for storing data beyond the life of the project (long-term)

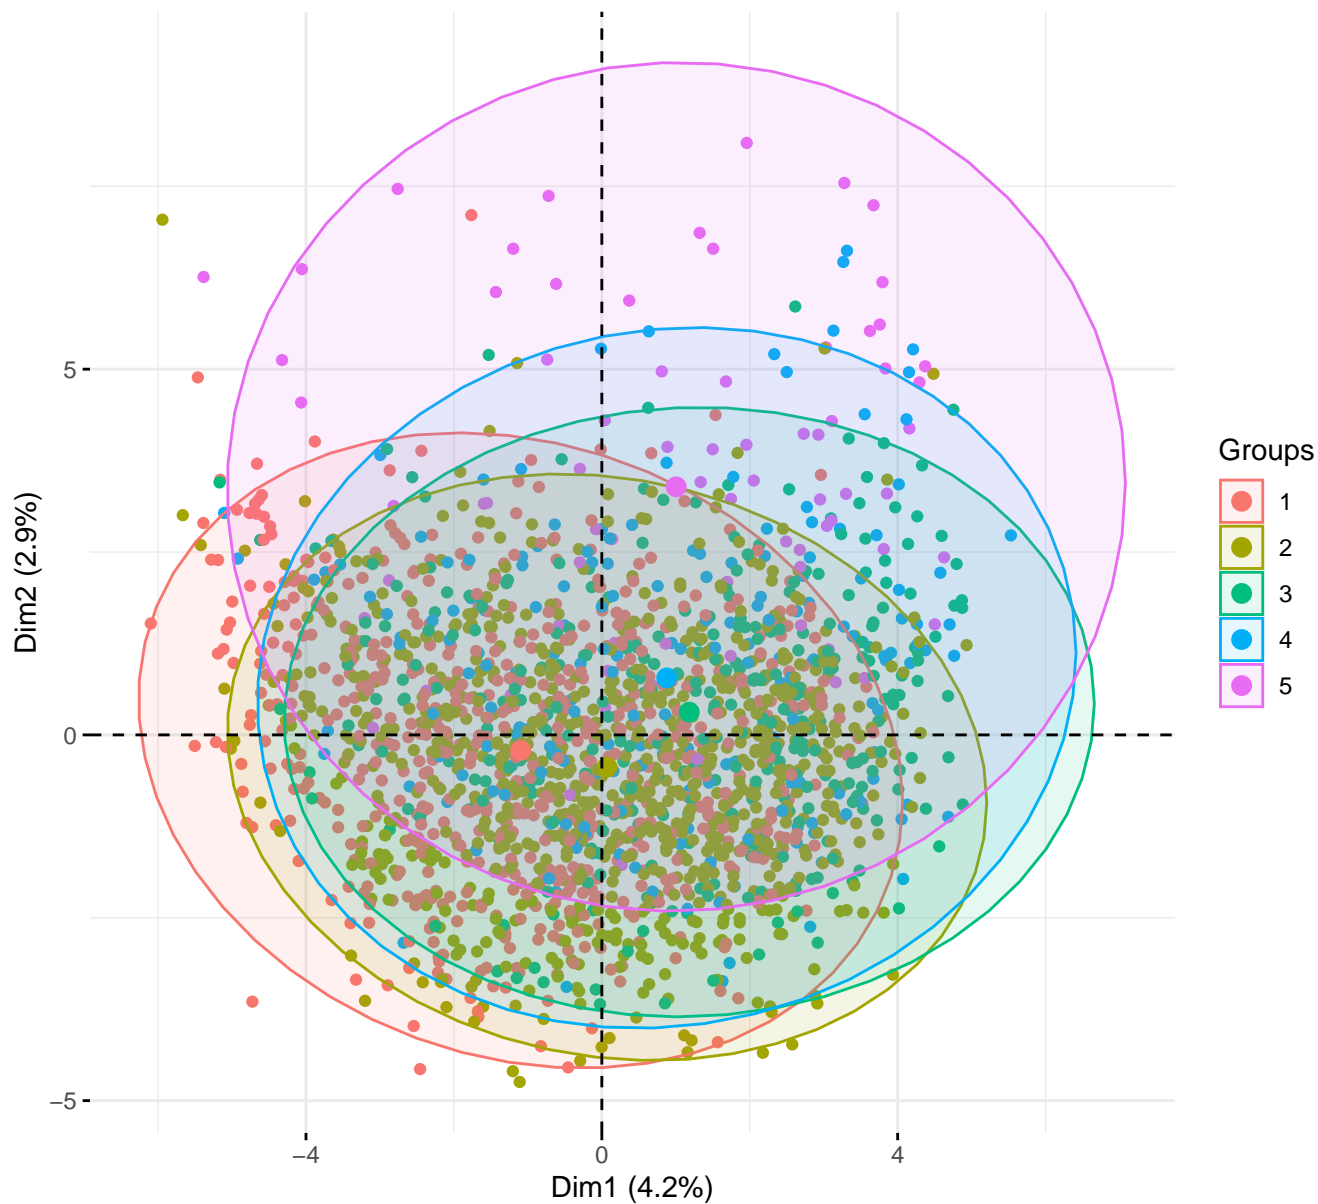

08\_22\_18: My organization or project provides  
training on best practices for data management

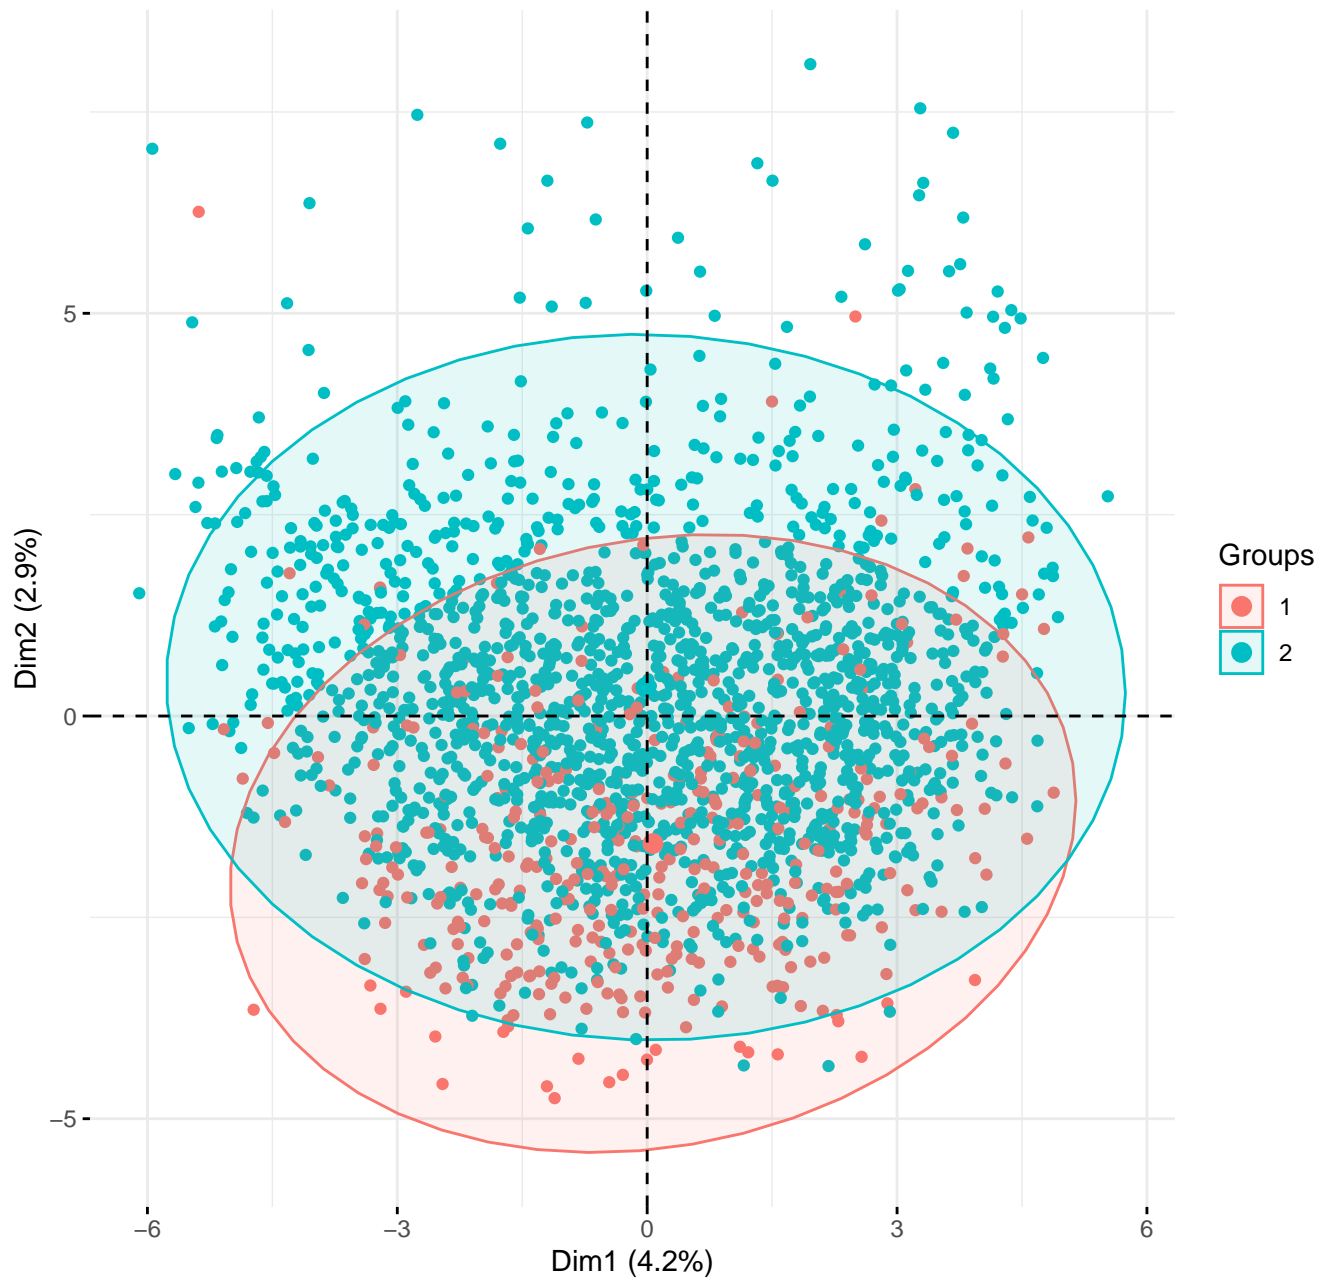

08\_20\_16\_1: My organization or project has a formal established process for managing data during the life of the project (short-term)

09\_31\_20\_1: Lack of access to data generated by other researchers or institutions is a major impediment to progress in science

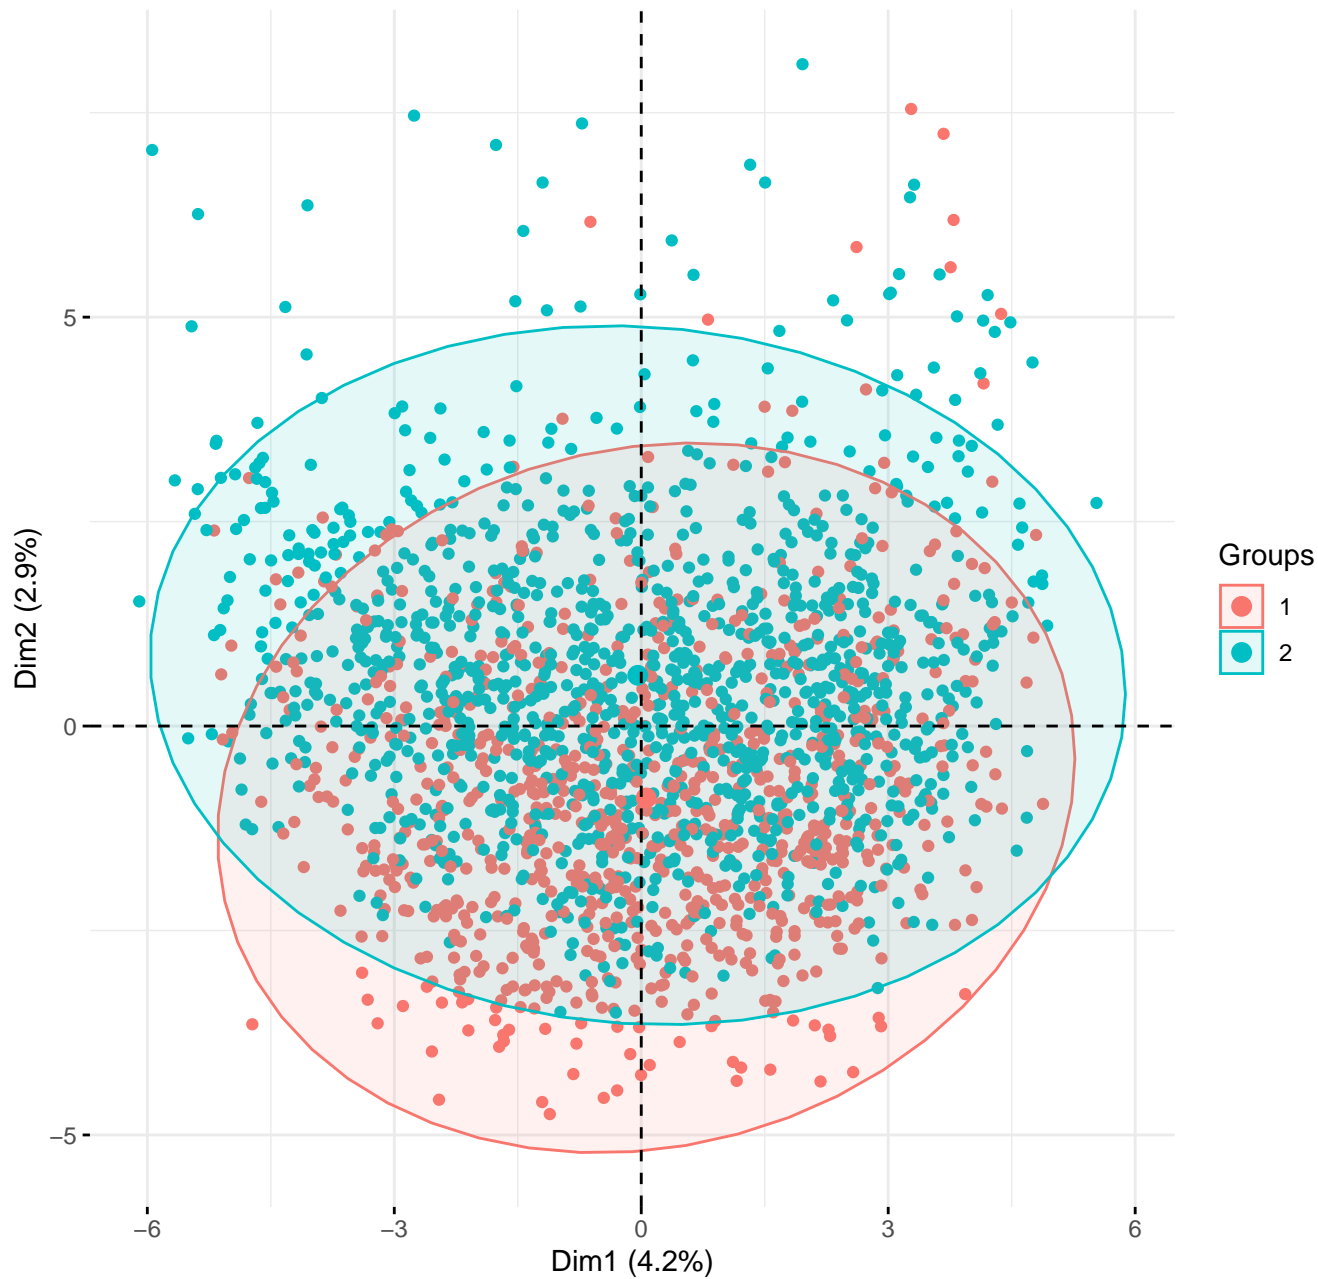

06\_16\_13\_2: Lack of standards

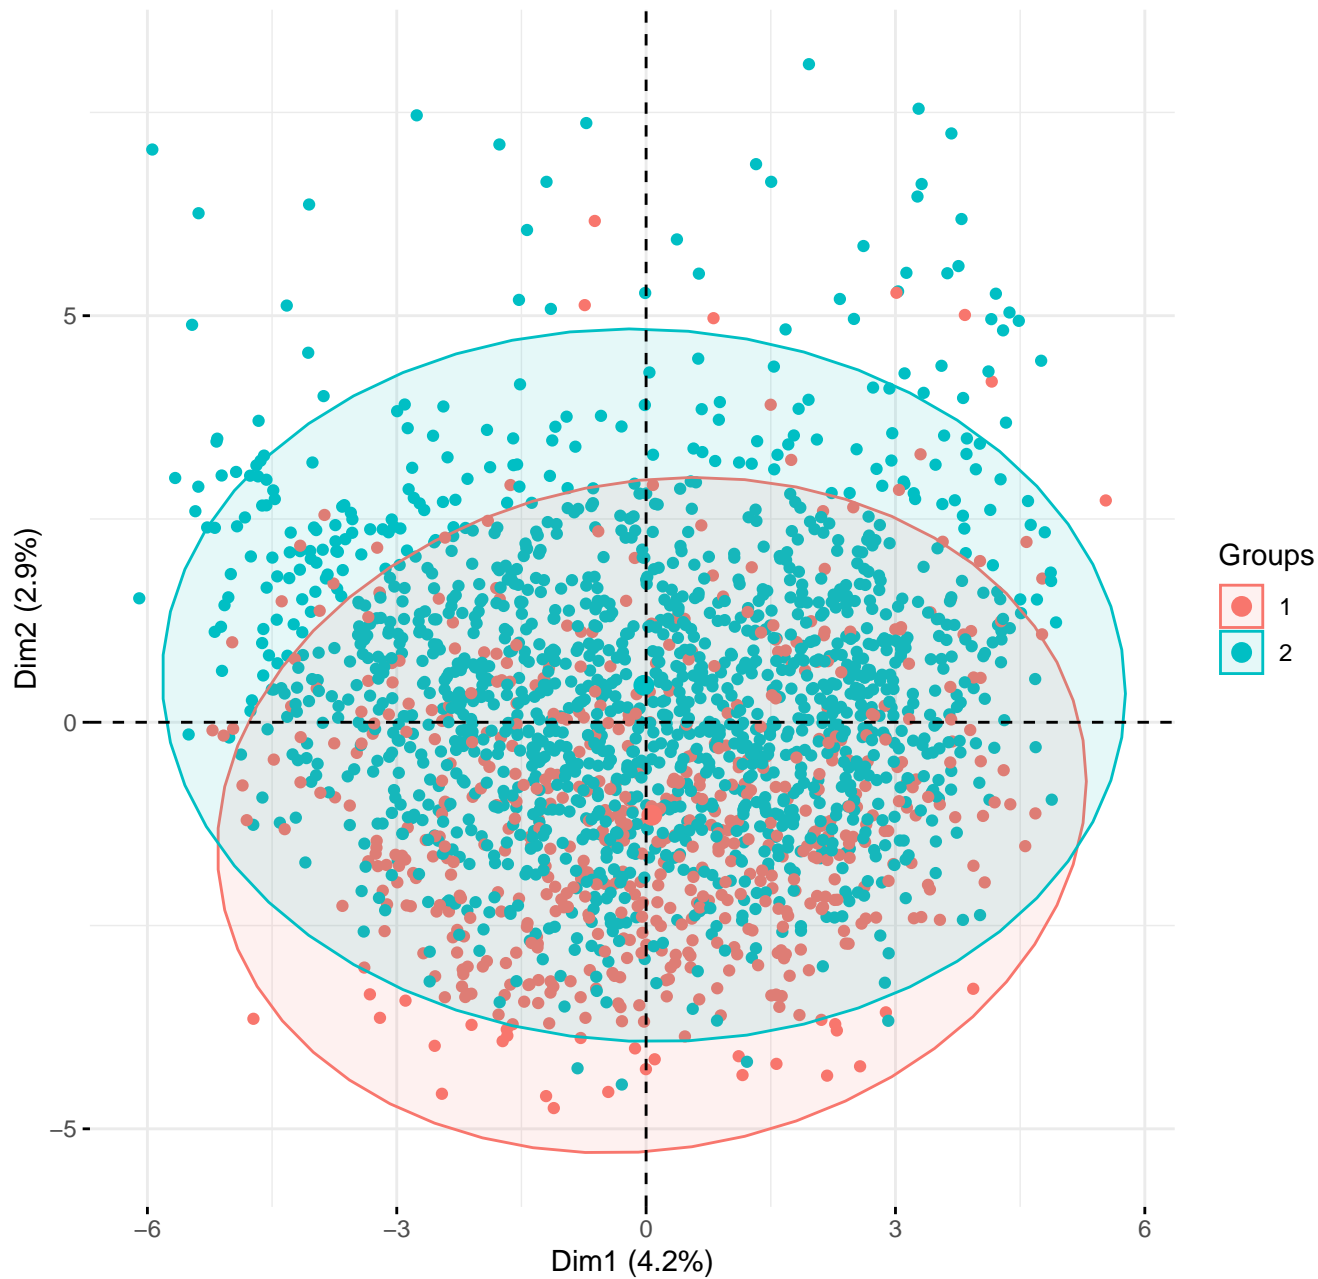

06\_16\_13\_4: There is insufficient time to make them available

06\_16\_13\_1: Lack of funding

09\_31\_20\_3: Data may be misinterpreted due to complexity of the data
